---

10. (once amended) An assembly comprising a box and a [an imbibed] dental floss at least partially enclosed in said box, the [ imbibed] dental floss comprising:

(a) a fiber of an elastomeric polymer capable of imbuing a chemotherapeutic agent; and  
(b) a therapeutically effective amount of the chemotherapeutic agent imbibed in the fiber.

---

23. A [An imbibed polymer] fiber comprising:

(a) a [ polymer] fiber capable of imbuing penicillin; and  
(b) a therapeutically effective amount penicillin imbibed in the [ polymer] fiber.

24. The [ imbibed] polymer of claim 23 in which the [ polymer] fiber is a nylon fiber.

---

Please add the following new claims:

25. (newly presented) The fiber of claim 1 in which the fiber comprises at least about 2,000 ppm of water soluble fluoride.
